

Dear Friend,

Donald Trump is poised to win in Michigan. How do I know this? Simple. Do you know anyone...I mean ANYONE that thinks Joe Biden is doing a good job? **Absent outright fraud, Biden could not get elected for dog catcher.**

Who could you possibly trust more than Kristina Karamo to be an election integrity warrior? She would never agree to voting drop boxes, etc.

Never forget that **it was REPUBLICANS that did the most damage to Trump in 2020.** We see the evidence of their treachery here: [Senate Oversight Committee releases report on November 2020 General Election - Michigan Senate Republicans \(misenategop.com\)](https://www.misenategop.com)

Senator Ed McBroom stabbed all Michiganders right in the back when he fraudulently proclaimed: "I am confident in asserting that the results of the November 2020 General Election in Michigan were accurate."

This is why 2024 is about more than just reinstalling the rightful President to his position, it must be about flipping the House back to Republican control. And ideally, not lukewarm pseudo-conservative Republican control.

This leads to a solid fundamental question. **How do we judge political leaders?** To be sure, people (Christians included) are called to judge. See for example in Scripture at Matthew 7:16.

What should be the litmus test for legislatures? **Here is a four-part test that a statesman should be following each time they consider passage of a law:**

1. Is it moral?
2. Is it Constitutional?
3. Is it affordable?
4. Is it good public policy?

Sadly, too many politicians skip one through three, and only consider four to the degree that a lobbyist suggests it's a good idea.

To be CLEAR, MIGOP and Kristina Karamo are duty bound to ensure fair elections and provide support for Republicans in elections. So, the opinions that follow are NOT the official position of MIGOP but are instead a position of MRP only.

MRP's position is that Republicans in Michigan would be well served to study the voting records of their political leaders and hold them to account. If a voting record is solid, the statesman should be praised and elevated. If their voting

record stinks, they should be replaced with other, better Republicans.

Let's take a look at some key Republican leaders in Michigan and their voting records and you can decide who should be considered for leadership.
