“How to Recognize ESG in Your Investment Portfolio and What To do About It”

This policy institute openly opposes ESG and globalism. In so doing, we point out that the master tool of the globalists to be able to effectuate policies like ESG is the Federal Reserve.

We MUST abolish the Federal Reserve.

On occasion, we are asked “What should the FED be replaced with?”

Our Answer?

NOTHING!

Consider it this way, would you trade cancer for dementia or would you rather not have either?

The Federal Reserve needs no replacement, and certainly not from the government. In advocating for this policy, we point out that there is a distinction between commodity money (gold, silver, and other precious metals), fiduciary currency (“honest paper money” that is merely a receipt for commodity money), and fiat currency (pieces of paper backed by government fiat that have had their value hollowed out by inflation).

Fiat Money

Money that the government guarantees as legal tender.

Fiat money derives its value from government regulation or law.

Fiat Money

It has no intrinsic worth. What it's printed on is worthless.

Commodity Money

Austrian Gold Corona

The money is made of a commodity, such as gold.

We have fiat currency today. **Since the Fed and Congress are responsible for devaluing the dollar by 98 percent since 1913, why would we want government in charge of money?**

Getting rid of the Federal Reserve will lead to long-term economic success. Removing the power to inflate will help keep the value of the dollar strong and stop Congress from having unlimited money for its unconstitutional spending. No efforts to balance the budget, including the terrible idea of amending the Constitution, will ever be successful unless the Federal Reserve is abolished.

Ending the Fed would also remove the safety net that has served to bail out domestic and foreign banks, as well as foreign countries, at American taxpayer expense. None of these bailouts are constitutional, and most are hidden from the public. Ceasing such bailouts would force entities to adopt more fiscal responsibility.

Abolishing the Fed would also help to safeguard against attempts to replace the dollar as the global reserve currency. The BRICS organization (Brazil, Russia, India, China, and South Africa) has begun trading petroleum in currency other than dollars, directly undermining the dollar's reserve-currency status it has enjoyed since the early 1970s.

It's time we restore sound money and take away the power of government to inflate, assuring buyers and sellers of goods everywhere that the dollar remains king.

Another key difference between commodity money and fiat money is that while fiat money needs constant management and intervention, commodity money needs no managing. The free market will set its own value. In a free market, competition produces excellence, and the government monopoly of money serves no purpose.

Will you be part of that fight? E-mail us at info@puregrassroots.org to get involved!

What can **YOU** do about this?

Get educated and get active in your community!

Use these guiding principles to form your team:

We believe the American system of government, a constitutional Republic, is the finest ever developed by man.

We believe the traditional moral values of our Judeo-Christian heritage form the cornerstone of western civilization and that the family is the most vital unit of society.

We believe the free market system, competitive capitalism, and private enterprise afford the widest opportunity and highest standard of living for all.

We believe in the dignity of the individual. We welcome people from all ethnic racial and religious backgrounds judging others only by character and ability - as we wish to be judged ourselves - our common bond is a love for liberty and our rejection of totalitarianism under any label.

We believe that individual rights are endowed by our creator, not government; that the government's function should be limited to protecting our right to life, liberty, and property; and that individual rights are inseparably linked to individual responsibility.

If you agree with the above concepts, you are a "Bircher" so let's get organized in local chapters of the John Birch Society to start impacting your community. In this way we can still work as an organized team statewide without concern of interference from the political thugs that set out to lynch Kristina.
